Product Name: Metal Glaze Product identifier: 100412 Revision Date: 08-19-2016 Replaces:

1. Identification		
Product identifier used on the la	bel:	
Product Name: Product identifier:	Metal Glaze 100412	
Other means of identification		
Synonyms:	No data available	
Recommended use of the chemical and restrictions on use:	Polyester Finishing and Blending Putty	
Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party		
Chemical Manufacturer / Importer / Distributor:	ITW Evercoat a division of Illinois Tool Works Inc. 6600 Cornell Road Cincinnati, OH 45242 513-489-7600	
Emergency phone number:	CHEMTREC: 1-800-424-9300 CANUTEC: 1-613-996-6666	

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard Symbols:

GHS Classification:

Respiratory Sensitisation Category 1 Skin Sensitisation Category 1 Reproductive Toxicity Category 1B Specific Target Organ Systemic Toxicity (STOT) - Single Exposure Category 1 Specific Target Organ Systemic Toxicity (STOT) - Repeated Exposure Category 1 Skin Corrosion/Irritation Category 2 Serious Eye Damage/Eye Irritation Category 2A Germ Cell Mutagenicity Category 2 Carcinogenicity Category 2 Hazardous to the aquatic environment - Acute Category 2 Flammable Liquid Category 3 Page 1 of 11

Product Name: Metal Glaze

Product identifier: 100412 Revision Date: 08-19-2016 Replaces:

	Hazardous to the aquatic environment - Chronic Category 3
GHS Signal Word:	Danger
GHS Hazard Statements:	Flammable liquid and vapour.
	Causes skin irritation.
	May cause an allergic skin reaction.
	Causes serious eye irritation.
	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
	Suspected of causing genetic defects.
	Suspected of causing cancer.
	May damage fertility or the unborn child.
	Causes damage to organs.
	Causes damage to organs through prolonged or repeated exposure.
	Toxic to aquatic life.
	Harmful to aquatic life with long lasting effects.
GHS Precautionary Statements:	nammar to aquate me with long lasting enects.
Safety Precautions:	Obtain special instructions before use.
Survey in resolutions.	Do not handle until all safety precautions have been read and understood.
	Keep away from heat/sparks/open flames/hot surfaces. – No smoking.
	Keep container tightly closed.
	Ground/bond container and receiving equipment.
	Use explosion-proof electrical/ventilating/lighting equipment.
	Use only non-sparking tools.
	Take precautionary measures against static discharge.
	Do not breathe dust/fume/gas/mist/vapours/spray.
	Avoid breathing dust/fume/gas/mist/vapours/spray.
	Wash thoroughly after handling.
	Do not eat, drink or smoke when using this product.
	Contaminated work clothing should not be allowed out of the workplace.
	Avoid release to the environment.
	Wear protective gloves/protective clothing/eye protection/face protection.
First Aid Measures:	Wear respiratory protection.
First Alu Measures.	IF ON SKIN: Wash with plenty of soap and water. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.
	Rinse skin with water/shower.
	IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a
	position comfortable for breathing.
	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses
	if present and easy to do. Continue rinsing.
	IF exposed: Call a POISON CENTER or doctor/physician.
	IF exposed or concerned: Get medical advice/attention.
	Get medical advice/attention if you feel unwell.
	Specific treatment (see on this label).
	If skin irritation occurs: Get medical advice/attention.
	If skin irritation or rash occurs: Get medical advice/attention.
	If eye irritation persists: Get medical advice/attention.

	If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician. Wash contaminated clothing before reuse.
Storage:	In case of fire: Use appropriate media to extinguish. Keep container tightly closed.
	Store in a well-ventilated place. Keep cool. Store locked up.
Disposal:	Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.
Hazards not otherwise classified:	Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage.

3. Composition/information on ingredients		
Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredient
Styrene	100-42-5	10 - 30
Titanium dioxide	13463-67-7	1 - 5
Zinc Phosphate	7779-90-0	0.5 - 1.5
Acid anhydride	85-43-8	0.5 - 1.5

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. First-aid measures

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

Eye Contact:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention. Flush eyes gently with water for at least 15 minutes, lifting upper & lower eye lids. Seek immediate medical attention.
Skin Contact:	Wash with soap and water. Get medical attention if irritation develops or persists. Remove contaminated clothing and continue flushing with water. Wash affected area thoroughly with soap and water. Seek medical advice if symptoms persist Wash clothing before reuse.
Inhalation:	Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen. If not breathing, give artificial respiration and have a trained individual administer oxygen. Get medical attention immediately If symptoms develop, immediately move individual away from exposure and into fresh air. Get medical attention immediately. Keep the victim warm and quiet. If the victim has stopped breathing open airway, loosen collar and belt, and administer artificial respiration. If breathing is difficult, oxygen

Ingestion:	may be beneficial if administered by trained personnel, preferably on a doctor's advice. Do not induce vomiting and seek medical attention immediately. Drink two glasses of water or milk to dilute. Provide medical care provider with this MSDS. Call a physician or poison control center immediately. Do not induce vomiting unless directed to do so by medical personnel. If individual is drowsy or unconscious, do not give anything by mouth; place individual on left side with head down. If possible, do not leave individual unattended. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs.
Most important symptoms/effec	ts, acute and delayed:
Most important	No data available
symptoms/effects (Acute): Most important symptoms/effects (Delayed):	No data available
Indication of immediate medical attention and special treatment needed, if necessary:	No additional first aid information available

5. Fire-fighting measures

Suitable (and unsuitable) extinguishing media:			
Suitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, or dry chemical extinguishing agents. Water may be ineffective but water spray can be used extinguish a fire if swept across the base of the flames. Water can absorb heat and keep exposed material from being damaged by fire. Regular foam Carbon dioxide Dry chemical		
Unsuitable extinguishing media:	No data available		
Specific hazards arising from the chemical (e.g., nature of any hazardous combustion products):			
Fire and/or Explosion Hazards:	Vapors may be ignited by sparks, flames or other sources of ignition if material is above the flash point giving rise to a fire (Class B). Vapors are heavier than air and may travel to a source of ignition and flash back.		
Hazardous Combustion Products:	Carbon dioxide, Carbon monoxide, Styrene oxide, Phthalic anhydride, Hydrocarbons		
Special protective equipment and precautions for fire- fighters:	Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Water may be used to cool closed containers to prevent pressure build-up		

Product Name: Metal Glaze Product identifier: 100412 Revision Date: 08-19-2016 Replaces:

and possible auto ignition or explosion when exposed to extreme heat.

Wear a self contained breathing apparatus (NIOSH approved) with a full face piece operated in the positive pressure demand mode with appropriate turn-out gear and chemical resistant personal protective equipment.

6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures: Methods and materials for containment and cleaning up:	No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section VIII of this MSDS No special spill clean-up considerations. Collect and discard in regular trash. Shut off ignition sources; including electrical equipment and flames. Do not allow smoking in the area. Activate available exhaust ventilation equipment in the immediate spill area. All personnel in the area should be protected as in Section 8. Avoid breathing vapors. Use an inert absorbent such as sand or
	vermiculite. Place in properly labeled closed container.

7. Handling and storage

Precautions for safe handling:	Mildly irritating material. Avoid unnecessary exposure. All hazard precautions given in the data sheet must be observed. Do not get in eyes, on skin and clothing Wash hands before eating Use with adequate ventilation Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Do not take internally. Keep container closed when not in use. Keep out of the reach of children.		
Conditions for safe storage, including any incompatibilities			
Conditions for safe storage:	Store in a cool dry ventilated location. Isolate from incompatible materials and conditions. Keep container(s) closed. Store in a cool dry place For maximum product quality, avoid prolonged storage at temperatures above 75 °F (25 °C) . Keep away from heat, sparks, and flame Store in a tightly closed container Avoid contact with incompatible materials.		
Materials to Avoid/Chemical Incompatibility:	Peroxides Strong acids Strong oxidizing agents Polymerization catalysts		

Product Name: Metal Glaze Product identifier: 100412 Revision Date: 08-19-2016 Replaces:

8. Exposure controls/personal protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:

Chemical Component	OSHA PEL	ACGIH TLV-TWA	ACGIH STEL
Styrene	100 ppm	20 ppm	40 ppm STEL; 170 mg/m3 STEL
Titanium dioxide	15 mg/m3	10 mg/m3	No data available
Zinc Phosphate	15 mg/m3 Total Dust	No data available	No data available
Appropriate engineering controls:	No exposure limits exist for the constituents of this product. Use local exhaust ventilation or other engineering controls to minimize exposures and maintain operator comfort. General or local ventilation or isolation may prove adequate to keep airborne exposures below exposure limits. Explosion proof exhaust ventilation should be used.		
Individual protection measure	s, such as personal protec	tive equipment:	
Eye Protection:	handling this product.	tant safety glasses with sid . Do not wear contact lense recommended to protect a	es. Splash proof
Skin Protection:	Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene and wear a barrier cream and/or impervious surgical style gloves. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Protective gloves and proper clothing should be worn to prevent skin contact. Gloves should be made of neoprene or natural rubber. To prevent repeated or prolonged skin contact, wear impervious clothing and boots A barrier cream may be used for additional skin protection.		
Respiratory Protection:	Respiratory protection when handling this pr the preferred means of ventilation is not avai	n may be required to avoid oduct. General or local ext of protection. Use a respira lable or sufficient to elimin spirator designed to remov	naust ventilation is ator if general room nate symptoms. Use
Other Protective Equipment:	Splash proof chemical the splash of product. be worn to prevent sk neoprene or natural r	I goggles are recommende Protective gloves and pro kin contact. Gloves should ubber. To prevent repeate ious clothing and boots A k	per clothing should be made of d or prolonged skin

10. Stability and reactivity

Reactivity:	No data available
Chemical stability:	Stable under normal conditions.
Possibility of hazardous	No data available
reactions:	
Conditions to avoid (e.g., static	Contamination
discharge, shock, or vibration):	

Product Name: Metal Glaze Product identifier: 100412 Revision Date: 08-19-2016 Replaces:	
Incompatible materials:	Peroxides Strong acids Strong oxidizing agents Polymerization
Hazardous decomposition products:	catalysts Carbon dioxide Carbon monoxide Styrene oxide Hydrocarbons
11. Toxicological information	
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact): Symptoms related to the physical, chemical and toxicological characteristics:	
v	nd also abrania offects from abort, and long term experience
-	nd also chronic effects from short- and long-term exposure:
Immediate (Acute) Health Effects Inhalation Irritation:	Can cause moderate respiratory irritation, dizziness, weakness, fatigue, nausea and headache. Excessive inhalation of vapors may cause nasal and respiratory irritation, acute nervous system depression, fatigue, weakness, nausea, headache and dizziness.
Inhalation Toxicity: Skin Contact: Skin Absorption:	Airborne overexposure well above the PEL may result additionally in eye irritation, headache, chemical bronchitis, asthma-like findings or pulmonary edema. Harmful! Can cause systemic damage (see "Target Organs) Can cause minor skin irritation, defatting, and dermatitis. No absorption hazard in normal industrial use. Causes skin irritation. Contact may cause irritation and possible dermatitis or sensitization. Symptoms may include redness, burning, drying and cracking of skin, and skin burns
Eye Contact:	Can cause moderate irritation, tearing and reddening, but not likely to permanently injure eye tissue. Contact with liquid or vapor may result in irritation, redness, tearing, and blurred vision.
Ingestion Irritation:	Irritating to mouth, throat, and stomach. Can cause abdominal discomfort, nausea, vomiting and diarrhea. Causes gastrointestinal tract irritation, nausea, vomiting, diarrhea and possible ulcerations to mucous membranes. Aspiration of material into the lungs can cause chemical pneumonitis which can be fatal.
Ingestion Toxicity:	Harmful if swallowed. May cause systemic poisoning.
Long-Term (Chronic) Health Effect Carcinogenicity:	Suspected of causing cancer. The International Agency for Research on Cancer (IARC) has classified styrene as a group 2B carcinogen (possibly carcinogenic to humans).
Reproductive and Developmental Toxicity: Mutagenicity: Inhalation:	May damage fertility or the unborn child. Suspected of causing genetic defects. Upon prolonged and/or repeated exposure, can cause moderate respiratory irritation, dizziness, weakness, fatigue, nausea and headache. Harmful! Can cause

Product Name: Metal Glaze Product identifier: 100412 Revision Date: 08-19-2016 Replaces:

 Skin Contact:
 systemic damage upon prolonged and/or repeated exposure (see "Target Organs)

 Upon prolonged or repeated contact, can cause minor skin irritation, defatting, and dermatitis.

 Skin Absertion:

Skin Absorption:

Upon prolonged or repeated exposure, no hazard in normal industrial use.

Numerical measures of toxicity (such as acute toxicity estimates) Component Toxicology Data

Chemical Component	Oral LD50	Dermal LD50	Inhalation LC50
Styrene	Oral LD50 Rat 5000 mg/kg		Inhalation LC50 (4h) Rat 24 g/m3
Acid anhydride	Oral LD50 Rat 5410 mg/kg		

Whether the hazardous chemical is listed in the National Toxicology Program (NTP) Report on Carcinogens (latest edition) or has been found to be a potential carcinogen in the International Agency for Research on Cancer (IARC) Monographs (latest edition), or by OSHA

Chemical Name	OSHA Carcinogen	IARC Carcinogen	NTP Carcinogen
Styrene	N	Y	Y
Titanium dioxide	N	Y	Ν

12. Ecological information

Ecotoxicity (aquatic and terrestrial, where available):	Toxic to aquatic life. Very toxic to aquatic life with long lasting effects. Very toxic to aquatic life. Styrene is toxic to aquatic organisms and should not be released to sewage, draining systems or any body of water exceeding concentrations of approved limits under applicable regulations and permits.
Persistence and degradability:	No data available
Bioaccumulative potential:	No data
Mobility in soil:	No data available
Other adverse effects (such as	No data available
hazardous to the ozone layer):	

Ecological Toxicity Data

Chemical Component	Aquatic EC50 Crustacea	Aquatic ERC50 Algae	Aquatic LC50 Fish
Titanium dioxide	Aquatic EC50 (48h)		Aquatic LC50 (96h) >
	Daphnia > 1000 ml/l		1000 MG/L

13. Disposal considerations

Description of waste residues and disposal of any contaminated page	l information on their safe handling and methods of disposal, including the		
Description of waste residues: Safe Handling of Waste:	Spent or discarded material is a hazardous waste. This material as supplied, if discarded, would be regulated as a hazardous waste under RCRA (40 CFR 261).		
Waste treatment methods (including packaging): Waste Disposal Code(s):	Dispose of by incineration following Federal, State, Local, or Provincial regulations. D001		
14. Transport information			
UN number:	UN3269		

UN proper shipping name:	POLYESTER RESIN KIT
Transport hazard class(es):	3
Packing group:	III

The shipper is responsible for following all applicable regulations. The transportation classification provided is based on ITW Evercoat original packaging, which is suitable for domestic ground transport only.

15. Regulatory information

Safety, health and environmental regulations specific for the product in question

TSCA Status:

The intentional ingredients of this product are listed.

Regulated Components

Chemical Component	CAS number and other unique identifiers	CERCLA	SARA EHS	SARA 313	California Prop 65
Styrene	100-42-5	Ν	N	Y	Y
Titanium dioxide	13463-67-7	Ν	N	Y	Y
Acetone	67-64-1	Ν	N	Y	Ν
Crystalline Silica (Quartz)	14808-60-7	Ν	N	N	Y
1,4-Naphthoquinone	130-15-4	Ν	N	Y	Ν
Styrene Oxide	96-09-3	Ν	N	Y	Y
Carbon black	1333-86-4	Ν	N	Ν	Y

16. Other information, including date of preparation or last revision.

Revision Date:	08-19-2016
Revision Number:	11
